STEEL COATED EPOXY FLOORS

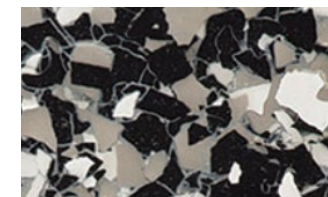

Ruffino Closet's trusted partner for Garages, Workshops, Warehouses, Patios, Showrooms and Hangers.

Steel Coated Floors uses a solvent two-part industrial strength epoxy coated to achieve durability, protection and resistance not possible with water-based or one-part products.

Coating is 100% waterproof, eliminating water absorption leading to deterioration, mold, odors and musty smells. Also resists motor oil, gasoline, antifreeze, brake fluid, salt and hot tire pick-up.

Flooring starting at \$6 per square foot
